Vascette® HP

-Hemostatic Pad-

The latest innovation in
vascular closure technology

***Simple peel and press application**

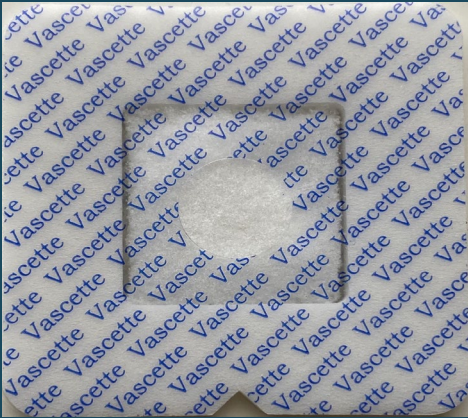

***Faster time-to-hemostasis**

***No arteriotomy
compression**

***Fewer complications**

Vascette® is a 5 cm²
hemostatic pad enclosing
the plant-based, surgical
Sealfoam® hemostat

The hemostatic foam
produces hemostasis in less
than 5 minutes with 6F
sheaths and no arteriotomy
compression

Sealfoam® is a registered trademark of Starch
Medical Inc (www.starchmedical.com)
